

THANK YOU

“Every child has a story to tell. Your donations helped break down walls so that children in the Child and Adolescent Mental Health Program could begin telling theirs.”

GLORIA PASMENY

The C.A.M.P Program is an inpatient treatment program offered that offers mental health treatment in combination with a school program to children between the ages of 5 - 17. Treatment is 24 hours per day, 5 days a week, following the school calendar. Your donations to the Chinook Regional Hospital Foundation were a catalyst to transition the C.A.M.P. treatment space from clinical to therapeutic. The results have been staggering and transformative.
