

THANK YOU

“Donors are at the heart of everything we do.”

PENNY GOSSELIN

This year, our donors proudly supported the Children’s Audiology Department with the purchase of a Bio-Logic Albear Newborn Hearing Screening Device.

Hearing and communication are critical to a child’s development — any impairment can have a cascading effect on other aspects of a child’s life. This equipment purchase aids in directly minimizing the impact of hearing loss on a child’s life through early identification and intervention.
