

THANK YOU

“Your donations aid us in ensuring our Operating Theatre is equipped with state of the art technology. You’ve helped us continue to offer world-class surgery to our community.”

DR. KIRSTEN JONES

In the modern operating room, efficiency is critical to quality of patient care. The more powerful and efficient an OR becomes, the greater the number of patients who receive vital care as a result. Created with Operating Room staff in mind, the i-Suite provides surgical teams efficiencies that allow them to focus on patient care. With the help of our generous donors, the Chinook Regional Hospital Foundation was able to fund a complete upgrade to i-Suites, directly benefitting our community, aiding in providing high-quality, compassionate health care.
